

It has been famous for a long time as a spa. It is about 100 km south of Sofia. Its mineral waters have temperature up to 55 degrees C and are beneficial in the treatment of the loco-motor system, neurological, dermatological, kidney, urologic and other diseases. Noteworthy: Even during the Middle Ages thousands of people swarmed around the waters of the 30 mineral springs and the warm baths “for luxury and for the upkeep of the body”, as they aptly defined the merits of the resort in the distant past.
