

Located 15 km northwest of Stara Zagora. The mineral waters (temperature up to 52° C) are suitable for the treatment of the loco-motor system, the peripheral nervous system, liver diseases and others. A balneology sanatorium has been built, as well as an open-air pool with mineral water, holiday houses and villas. The spa provides good conditions for treatment, holiday making, sleeping accommodations and entertainment. Noteworthy: Remains of Roman baths from the 2nd century A.D. can be seen here, built for the needs of Augusta Trajana, the town second in importance in the Province of Thrace after Philippopolis.
