

The village of SINEMORETS is located about 5 km south of Ahtopol on a peninsula, close to the mouth of the Veleka River. The village has been a veritable tourist hit during the last few years. The rapidly expanding resort has three wonderful beaches. The high and rocky coast in the southern part conceals incredibly beautiful virgin nooks – the dream of anyone, looking for the quiet of seclusion, and a thrill for the one discovering the unsuspected diversity of nature here.
